Cumulus Architects

Senior Healthcare Architect

Cumulus Architects Inc. is a dynamic, innovative and interdisciplinary practice grounded in the principles of team-based design and collective intelligence. Simply put, we believe that making architecture together in a collaborative studio environment makes a difference.

We apply interdisciplinary thinking to large, complex design challenges. Our leadership team brings expertise across arts and culture, mobility and accessibility, wellness and mental health, mixed-use development, and heritage and preservation. Collaboration unlocks a cumulative process of engagement—one that invites curiosity, encourages innovation, and nurtures creativity.

At Cumulus, we are growing our diverse team of curious, innovative, and creative people. We foster a culture of collaboration and innovation with the explicit aim of ensuring every team member feels personally engaged in the successes we achieve together.

We currently have opportunities for a Senior Healthcare Architect interested in making an impact on a diverse range of innovative projects across Canada.

In this role you will be involved in:

- Work on conceptual designs, space planning, presentations, design development, and production
- Manage the deliverables of the design team
- Work with consultants, contractors, specialty equipment suppliers, fabricators, specification writers, and regulatory agencies to meet overall project objectives
- Support Business Development within the healthcare sector
- Supervise and mentor junior staff

What we are looking for in a candidate:

- Minimum10 years of practice experience
- Familiar with applicable healthcare design standards
- Familiar with current trends, evidenced based design, lean design principles, etc.
- Sustainability and relevant accreditation in healthcare a plus
- Strong conceptual, graphic and design skills

- Proficiency in Revit and related production software an asset
- Critical thinking, effective problem solving and decision-making skills a must
- Experience preparing design and construction documents for institutional and residential projects

Salary Range

The salary range for this position is $100,000 – $150,000**.** Final compensation will be determined based on experience, skills, and internal equity.

This role reflects an existing vacancy.
